

October Meeting: Small Agency Outreach Committee

Jack Spooner, Goran Gustavsson, Bob Auton, Robert H. Jenkins

The two areas we discussed on focused on how we might be able to make a Shared Service Center concept work for small agencies. Since then, a prototype on how this concept might work was sent to the committee for comments.

DJJ is also making MOAT available to small agencies that do not have a Security Awareness Program. DJJ will customize and charge a flat rate per user to cover license fees and administration.

Doug is working on the Committee pages.
